Dear participants of the conference!

It is a great honor for us to host guests at the XII International Scientific and Practical Conference “Ukrainian School of Mining Engineering – 2018” in the pearl of the Azov Sea – the sunny Berdiansk.

Undoubtedly, the present meeting is an outstanding event in the life of our School and will encourage innovative development, uniting efforts in discussing topical issues of efficiency and safety of mining operations, solving complex problems of mining and processing industries of the world, an effective impetus for the implementation of new, interesting ideas for optimization of our collaboration.

We are convinced that the professional and representative level, knowledge, experience and high human qualities of the participants of our meeting will enable us to make suggestions and recommendations that will increase the efficiency of further development of the mining industry.

This meeting is a unique opportunity not only to get together, share experiences, new developments, achievements, but also discuss the pressing issues that concern leading mining specialists, progressive research and development workers, laboratories, commercial organizations and universities with advanced mining profiles. After all, it is quite clear that the reform of the industry in Ukraine makes science and enterprises to further develop and modernize.

Therefore, we would like to express our special gratitude to the conference participants for the opportunity to communicate with colleagues and to enrich themselves with new knowledge.

Regards,

Organizational Committee of the School of Mining Engineering
