

International Scientific Conference  
PROBLEMS OF ARCHITECTURE, CIVIL ENGINEERING AND  
ENVIRONMENTAL ECONOMICS — TPACEE 2018

**TPACEE-2018**

**Preface**

International Scientific Conference TOPICAL PROBLEMS OF ARCHITECTURE, CIVIL ENGINEERING AND ENVIRONMENTAL ECONOMICS — TPACEE 2018 was hosted by Moscow Region State University. The conference took place on 3—5 December 2018, brought together scientists from more than 10 countries, and became a platform for discussing the main problems in the fields of Environmental Engineering and Energy Efficiency.

Industry experts and representatives of government agencies discussed innovative and applied methods concerning Power Transmission and Generation, Energy-Efficient Construction, Energy Management, Environmental Solutions for Waste and Wastewater Treatment, Environmental Architecture and Sustainable Urbanism, Environmental Engineering, Environmental Management and Environmental Economics.

During several workshops, guests and speakers brought up relevant the economic effects of environmental policies at local and regional levels, including the analysis of costs and benefits associated with the implementation of various environmental policies related to air pollution, water quality, toxic emissions, solid waste.

Within the conference, the scientists of the EU, Russia and the World exchanged their latest scientific achievements and strengthened their academic relations.

The organizing committee of the conference gathered the esteemed scientists and professors from all over the world, including Russia, Japan, Greece, Austria, Hungary, China, Kazakhstan and other countries.

The conference chairperson was Mikhail Zalikhanov, the full member of Russian Academy of Sciences, Honorary Professor of Lomonosov Moscow State University.

The members of our organizing committee express their deep gratitude to the crew of the journal for their help in preparation and publishing the proceedings of the conference.

We wish your journal well-being and prosperity!

Aleksandr Zheltenkov
