

Preface

We are pleased to present the volume of 2018 International Conference on Green Energy and Environment Engineering (CGEEE 2018). The conference CGEEE 2018 was held in the Seisa Dohto University, Kitahiroshima, Japan during August 27-29, 2018. The conference is dedicated to building an overarching technology platform for researchers in academics. As part of the event, the CGEEE issue meant to look far out enough in time, space and across disciplines and focusing on Green Energy and Environment Engineering.

The conference program was put together as a result of much hard work and dedication by many individuals. With the important efforts of the whole committee, the evaluation of all the papers was performed based on the reports from anonymous reviewers, who are qualified in the field of Green Energy and Environment Engineering. This volume will provide an opportunity for readers to engage with a selection of refereed papers that were presented during the CGEEE 2018 conference.

Prof. Wallace C.H. Choy from The University of Hong Kong, Hong Kong, Prof. Miwako Hosoda from Seisa University, Tokyo, Japan, Prof. Kokyo Oh from Center for Environmental Science in Saitama, Japan and Prof. Chan Jin Park from Incheon National University, Republic of Korea have delivered keynote speeches in CGEEE 2018. CGEEE 2018 had three sub sessions with different topics: Power and Energy Engineering; Environmental Engineering and Biological Science; Environmental Engineering and Biological Science.

Our sincere gratitude goes to the session chairs and the technical program committee members for their hard efforts in ensuring the paper quality.

We hope that you enjoy and find valuable your engagement with the ideas in sustaining your own professional development in the global world of engineering energies.

Conference Chair

Prof. Wallace C.H. Choy,

The University of Hong Kong, Hong Kong
