

Preface

2019 The 2nd International Conference on Electrical Engineering and Green Energy was held in Roma, Italy during June 28-30, 2019. This conference is a premier forum for electrical engineering and green energy researchers and professionals to discuss, distribute and advance the state of research and development of the relevant fields. The conference facilitates the exchange of insights and innovations between the industry and academia, each represented by leaders in their respective fields.

The clean technologies are now making progress and hence the conference will focus on providing an opportunity to technologists, scientists, industrialists, environmentalists and experts to showcase their novel energy efficient technologies. The goal of the conference is to address energy and environment related challenges, especially those facing the developing world by providing networking opportunities for global collaborations for developing suitable solutions for diverse applications and user groups. The scientific program will include overviews, state of the art lectures and controversial debates, interactive education sessions, featured symposia, breakout sessions and oral presentation sessions for abstracts.

The Conference attracted participants from Bulgaria, China, Denmark, Ecuador, Germany, Iran, Lithuania, Malaysia, México, Nigeria, Portugal, Republic of Korea, Romania, Singapore, Thailand, etc.

Special appreciation extends to our distinguished speakers and all the committee members. The anonymous reviewers have also been very helpful in reviewing the papers, and providing valuable comments to the authors so as to improve the quality of the papers. We express our sincere and grateful thanks to all the authors and reviewers.

Conference Chair

Prof. Hassan Bevrani, University of Kurdistan, Iran

On behalf of the GEEGE 2019 Conference Committees

June 28-30, 2019
