PREFACE

We are pleased to present the ITESE 2019 conference, which takes place every year in the sunny village of Divnomorskoye, Krasnodar Krai, Russia, and gathers friends from many corners of the world.

The velvet season on the Black sea and the program full of scientific and sports events attract students, teachers, eminent scientists from dozens of different universities.

This year, the conference was also attended by representatives of the Ministry of Agriculture of the Russian Federation, the administration of the Krasnodar Krai, and the heads of several largest enterprises from various regions of Russia.

In total, over 500 scientific papers were submitted to the conference. After careful selection, 280 high-quality papers containing the results of scientific research on environmental engineering, new technologies in the field of energy efficiency, and sustainable agribusiness were included in the conference proceedings.

We invite everyone to join our conference in 2020.

We express our gratitude and warm regards from all participants of the ITESE 2019 conference to the editorial team of the E3S Web of Conferences journal and to all EFO Science employees.
