PREFACE

IV INTERNATIONAL SCIENTIFIC AND PRACTICAL CONFERENCE "SUSTAINABLE DEVELOPMENT AND" GREEN "GROWTH ON THE INNOVATION MANAGEMENT PLATFORM" May 27 - 28, 2021, Kaliningrad, Russia

SDGG - 2021

Recently, the study of issues related to innovations providing for sustainable economic growth has come to the forefront becoming one of the most urgent tasks of modern science and practice. The participants of the IV International Scientific and Practical Conference "Sustainable Development and Green Growth on an Innovation Management Platform" held on May 28-29, 2021 in Kaliningrad, Russia, discussed the development based on environmentally friendly technologies, principles of social business ethics and reproductive bioeconomy.

The key sections of the conference were:

1. Creation of regional infrastructure for sustainable development of production;
2. Resource conservation and sustainable consumption and production patterns;
3. Ensuring the safety, resilience and sustainability of the development of territories;
4. Sustainability of social development in the context of large-scale digitalization and the use of artificial intelligence technologies;
5. Facilitating harmonious development: culture, education, developing leisure, tourism;
6. Ensuring healthy lifestyles and promoting well-being for all at all ages;
7. Sustainable functioning of economic systems under restrictions;
8. Strengthening the means of implementation and revitalizing global partnership mechanisms for sustainable development.

The collection of papers reflects innovative solutions to problems within the framework of the key topics, both theoretically as well as methodologically substantiated and feasible. All published articles have undergone required review process. The reviewers included the world leading scientists, authors of prominent works on sustainable development and green growth.

We express our deep appreciation to the members of the program committee, the organizers, and the reviewers of SDGG 2021 for their invaluable contribution to the success of the conference. We gratefully thank all the authors for presenting their research findings for discussion.

We look forward to future cooperation!

Göran Roos,

Visiting Professor in Business Performance and Intangible Asset Management,
Centre for Business Performance, Cranfield School of Management, Cranfield University,
Cranfield, UK
