Retracted article: E3S Web of Conferences 587, 04001 (2024),
<https://doi.org/10.1051/e3sconf/202458704001>

Retracted article published online: 07 November 2024

We take a zero tolerance to any situation where fraudulent research is published in our journals. As a result, this article has been retracted by the Publisher because it is suspected to contain a number of irrelevant and questioned references.

Additional measures have been implemented to prevent these issues from reoccurring.

EDP Sciences is extremely grateful to anonymous whistleblowers and the [Problematic Paper Screener](#) [1] for bringing this case to our attention for further investigations.
