The conference is to summarize international experience in the field of agriculture ecology and earth science. The conference will present scientific research aimed at solving a set of problems in the field of sustainable development, namely:

- Development of scientific and practical potential in order to formulate proposals for the introduction of science-intensive technologies in agriculture;
- Popularization of fundamental and applied research in the field of agriculture, ecology and nature management, mining and soil cultivation technologies;
- Formation of recommendations aimed at improving computer models, information technology, engineering, innovative and digital technologies in agriculture and environmental protection.

**INTERNATIONAL CONFERENCE ON ENSURING SUSTAINABLE DEVELOPMENT: ECOSYSTEM, EARTH SCIENCE, ENERGY AND AGRICULTURE (AEES2023)**
