

Preface

The 9th International Conference on Sustainable and Renewable Energy Engineering (ICSREE 2024) convened from May 9-11, 2024, in the beautiful city of Marseille, France. Embracing a dynamic blend of in-person gatherings and virtual participation, ICSREE 2024 exemplified innovation in scholarly discourse, transcending geographical boundaries to foster a truly global exchange of ideas.

With esteemed delegates and scholars from diverse corners of the globe—including Morocco, China, Mexico, Slovakia, Spain, Kazakhstan, Australia, UK, Ecuador, Turkey, France, Kuwait, Indonesia, and Germany—ICSREE 2024 epitomized international collaboration and knowledge sharing in Sustainable and Renewable Energy Engineering. This diverse participation underscored the universal relevance and collective commitment towards advancing sustainable practices and renewable energy solutions worldwide.

The conference proceedings of ICSREE 2024 encompassed a rich tapestry of research contributions, featuring pioneering studies and insights from esteemed researchers, scientists, engineers, and students. Each paper showcased meticulous research and innovative approaches, reflecting the dedication and expertise of our global community.

We extend our sincere gratitude to all authors for their invaluable contributions, as well as to the diligent reviewers and technical committees whose rigorous evaluations ensured the scholarly excellence of the conference proceedings. Special thanks are due to the organizing committee whose unwavering dedication and meticulous planning were pivotal in orchestrating this successful event.

As we reflect on the achievements of ICSREE 2024, we remain committed to advancing the frontiers of Sustainable and Renewable Energy Engineering through continuous dialogue and collaboration. The vibrant discussions and networking opportunities at ICSREE 2024 have set a benchmark for future endeavors, inspiring us to strive for greater innovation and impact in our respective fields.

We look forward with anticipation to future editions of ICSREE, where we will once again gather to explore new avenues, forge lasting partnerships, and contribute towards a sustainable future for generations to come.

Thank you to all participants, sponsors, and supporters whose enthusiasm and commitment have made ICSREE 2024 a resounding success.

Conference Chair

Erwin Franquet, Université Côte d'Azur, France

Program Chair

Jian Lin, University of Strabourg, France
