BACKGROUND

In the face of escalating climate challenges, environmental degradation, and the increasing demand for sustainable development, the role of informed action and innovation has never been more crucial. It is increasingly clear that navigating this global crisis demands not only scientific breakthroughs but also a fundamental rethinking of social values, behaviors, and institutional frameworks.

This year's symposium recognizes this dual imperative. Innovation must not only drive progress but also ensure resilience, the resilience of ecosystems, communities, and future generations. Furthermore, the climate crisis, environmental degradation, and rapid technological change are not merely technical challenges; they are deeply social, cultural, and ethical in nature. Transforming society requires more than just green technology; it demands a critical interdisciplinary perspective.

The 7th Borobudur International Symposium 2025 in conjunction with The 3rd International Conference on Environment, Green Technology and Digital Society 2025 is therefore structured around two major thematic tracks to address these comprehensive needs:

1. Track I: Science and Technology (S&T)

With the theme “Empowering Sustainable Science and Technology for Environmental Resilience and Green Innovation”, this track brings together researchers, academics, practitioners, and policymakers to share ideas and innovations that align with the global pursuit of sustainability. This symposium aims to explore scientific breakthroughs and technological solutions that support environmental recovery, promote renewable energy, improve sustainable agriculture, enhance climate adaptation strategies, and foster circular economy practices. This international forum encourages interdisciplinary dialogue and collaboration across environmental sciences, engineering, energy, and digital technologies.

2. Track II: Humanities and Social Science (HSS)

Seeking to explore the transformative and human dimensions of sustainability, this track focuses on the theme “Transforming Societies for a Greener Future: Interdisciplinary Insights from Humanities and Social Sciences”. The symposium invites scholars, researchers, and practitioners to reflect on the human, cultural, legal, political, and ethical frameworks that shape, and are shaped by, sustainability efforts. Key issues include the role of environmental education and communication, social behavior and resilience, environmental governance, green policy and law, and the ethics of climate and intergenerational justice.

By converging these two essential tracks, this conference recognizes that achieving a greener future requires both innovation (from S&T) and understanding (from HSS). It is through this synergistic approach that we can effectively address the complexities of climate change and move toward a more equitable and sustainable future.

ONLINE Q&A FORUM

ONLINE Q&A FORUM Discussion Guidelines

DISKUSI DARING Petunjuk Diskusi

ONLINE Q&A FORUM

Online Q&A Forum aims to:

- 📄 Sharing research findings,
- 📄 Getting feedback of the research findings from the other members, and
- 📄 Building a network with other colleagues in the same area of research.

- 1 The discussion will be held through online Q&A Forum through ConfyChair.
- 2 Q&A Forum **will be held for 3 hours**.
- 3 List of videos can be sorted by the track
- 4 In the Q&A Forum, all presenters are **given 1 hour** to ask a question or provide feedback to **3-5 another presenter** (free to choose videos based on preferences or study areas).
- 5 Presenters who are given feedback and questions have the opportunity to provide answers for **the next 2 hour**.

DISKUSI DARING

Diskusi Daring bertujuan untuk:

- 📄 Berbagi hasil penelitian,
- 📄 Mendapatkan umpan balik dari penelitian yang telah dilakukan, dan
- 📄 Membangun jejaring dengan kolega yang memiliki bidang kajian yang sama.

- 1 Diskusi dilaksanakan melalui Forum online dalam ConfyChair.
- 2 Q&A Forum **dilaksanakan selama 3 jam**.
- 3 Daftar video dapat diurutkan berdasarkan track
- 4 Dalam Q&A Forum, seluruh presenter diberikan **waktu selama 1 jam** untuk bertanya atau memberikan tanggapan kepada **3-5 presenter lain** (bebas memilih video sesuai preferensi dan bidang ilmu). Presenter yang diberikan feedback maupun pertanyaan
- 5 berkesempatan untuk **memberikan jawaban selama 2 jam berikutnya**.

GUIDELINES TO CREATE VIDEO PRESENTATION

THE AUTHOR WITH ACCEPTED ABSTRACT is required to make a **VIDEO PRESENTATION** to deliver research results.

Make sure that the video explains about:

- ❓ The author's identity
- ❓ Background to the problem
- ❓ Methods
- ❓ Research results, and
- ❓ Conclusions

The overview of the video presentation

- 1 The duration of the Videos is about 8-12 minutes.
- 2 Videos can be made using Zoom, Webex, Microsoft Teams, Google Meet, etc.
- 3 Ensure that the video has a clear sound
- 4 Presentation videos can be delivered in two languages, English or Indonesian (with English subtitles)
- 5 Videos should be uploaded on YouTube. The link to the YouTube video must then be submitted to ConfyChair
- 6 Put hashtag on your YouTube video, such as:
#The7thBIS2025
#BorobudurInternationalSymposium
#The3rdInterconnects2025

Pastikan video yang dibuat menjelaskan tentang:

- ❓ Identitas penulis
- ❓ Latar Belakang Masalah
- ❓ Metode
- ❓ Hasil penelitian, dan
- ❓ Kesimpulan

Ikhtisar video presentasi

- 1 Durasi Video sekitar 8-12 menit.
- 2 Video dapat dibuat menggunakan Zoom, Webex, Microsoft Teams, Google Meet, dll.
- 3 Pastikan video memiliki suara yang jernih
- 4 Video presentasi dapat disajikan dalam dua Bahasa, Bahasa Inggris atau Indonesia (dengan subtitle Bahasa Inggris)
- 5 Video harus diunggah di YouTube. Tautan YouTube kemudian unggah pada ConfyChair
- 6 Pasang hashtag pada video YouTube Anda, seperti:
#The7thBIS2025
#BorobudurInternationalSymposium
#The3rdInterconnects2025
